

olivum NG

Extra Virgin Olive Oil

The New Generation EVOO

This **Extra Virgin Olive Oil** is high in natural olive antioxidants. This unique feature is achieved, among others, by cold pressing the olives purely through mechanical means.

olivumNG has been carefully selected from many olive oils that provide the amount of antioxidants that are typical of Extra Virgin Olive Oil.

olivumNG contains natural polyphenols such as Hydroxytyrosol, Oleuropein and Oleocanthal. These phenolic compounds are responsible for the antioxidant, cardioprotective and anti-inflammatory properties of Extra Virgin Olive Oil.

The daily consumption of 20 g of this **olivumNG** provides health benefits, since it offers higher amounts of olive polyphenols than that stated in EFSA Health Claim (European Regulation 432/2012*), with special emphasis on the protection of blood lipids against oxidation.

In **olivumNG**, the ancestral and artisanal form of the olive is harvested and collected manually. Thus, the highest technology is used in the determination of all the healthy components of this Extra Virgin Olive Oil.

Composition:

100% Extra Virgin Olive Oil.

Take 2 tablespoons (20 g) a day from **olivumNG** at any time of the day.

Packaging :

500 ml / 16.9 fl.oz

Origin:

olivumNG is produced and bottled in Spain - EU
R.G.S.E.A.A. N° 26.021196/A

* Authorised Declaration of Healthy Properties, published by the European Commission on 16 May 2012 Regulation (EU) No. 432/2012
